After Action Report for Fiesta of Cultures 10/22/11

Event

The event was the Fiesta of Cultures at Coronado Monument. This event is hosted by Friends of Coronado State Monument, in Bernalillo, NM. Many vendors and performers attended but not as many as last year. This was, no doubt, due to the ominous looking weather. A little wind came up and the temperature was cool but weather stayed mild all day. One of the advantages was that it was not hot. The museum staff allowed us to setup in the stockade corral.

Muster

We mustered three people, Mike and Barbara Bilbo, and Dave Poulin.

The Event

Of the people at the show there were a lot of visitors that came down to our area. We were able to speak with many people throughout the day. Mike borrowed a musket from the museum for display. It seemed to us that the people we met were more interested in what we were doing than we are normally used to. They asked a lot of questions, which was very nice.

Conclusion

It was a nice relaxing event without any hard drills or marches and again, we met many good people. Sorry, no photos.

Dave
