## *After Action Report for Spring Festival 6/07/14*

### *Event*

The event was the Spring Festival at Museo de Las Golondrinas. Many vendors and performers also attended. The weather was very nice this year. We did not set up a camp. The weather did not cooperate at all.

### *Muster*

We mustered three people, Mike and Barbara Bilbo, and Tony Campisi.

### *The Event*

When we set up in Baca Plaza a woman came along with her nose up in the air and kicked us out saying the space (next to the dugout) was reserved for "Madeleine Poulin," which turned out to be Madeleine Quillen. So we found a place across from there, on the corner of the goat pen. Tony soon joined us and we did lots of living history with Barbara talking about Spanish colonial foods. As we were at the first location for people entering the Plaza, we were able to attract their attention right away. But as the day wore on, the wind and dust were so bad that Barbara got sick and did not want to continue on Sunday.

### *Conclusion*

We made the best of it and talked to many people despite the wind.

Mike
